OMEGA^{AI}

Your ears, our expertise

Congratulations on taking steps to support your hearing health today.

Treating any hearing loss is one of the best things you can do to maintain not only your quality of life, but also your overall health.

“When I got hearing aids, it was that experience of ‘what have I been missing?’ It was beautiful. I loved it.”

Better hearing helps you stay connected to the people you care about. It fosters confidence, communication, participation, and the **wonder of experiencing the world around you.**

And by maintaining awareness of your surroundings and every moment that matters, your risk of health conditions like cognitive decline, isolation, depression, and falls decreases.

Paired with the guidance of an experienced hearing care professional, Starkey's **Omega AI hearing aids** are today's best choice for better hearing—and living —into the future.

A new dimension in better hearing

Technology designed to help you hear better and live better should feel natural, seamless, and individual to your needs—so **you'll never miss a beat.**

It should allow you to easily connect and forget about your hearing loss, whether you're at home watching TV, with friends at a crowded restaurant, or in any situation—room to room, moment to moment.

It should be **Omega AI hearing aids**—built with sound clarity that instills connection, durability that drives confidence, and innovation that promises unstoppable living.

“This technology allows me to continue to do the things I love.”

Endless hearing, unstoppable you

Omega AI hearing aids redefine what it means to be modern and discreet yet durable and comfortable for all-day wear.

And with **Auracast™ assistant connectivity**, you'll stay connected to your world—and to clarity—wherever the day takes you.

*Waterproof up to 1 meter. Rechargeable styles only.

Take life in from every angle

Omega AI allows you to navigate every situation with a genuine sense of connection and clarity.

Maintain your awareness

Hear key environmental sounds and the start of speech more clearly, helping you stay aware of your surroundings.

Understand speech in noise

Hear speech with improved clarity in noisy environments and stay engaged in your conversations.

Hear as you go

Navigate through different listening environments, knowing your hearing will adapt as you go.

Landscape Designer

Clear and now— with **Edge Mode+**

Unexpected listening conditions in places like restaurants or crowded events have nothing on Edge Mode+—a proprietary feature of Omega AI that gives you the on-demand ability to **zero in on speech** in any challenging environment.

Stay connected on every level

Pair Omega AI to the My Starkey app for greater control, everyday convenience, and connectivity that delivers high-quality listening experiences faster, smoother, and further than ever before.

Stream audio anywhere

Omega AI's Bluetooth® Low Energy (LE) Audio enables our **all-new Auracast assistant**, allowing smooth, clear listening to everything from public airport announcements to TVs at the gym—all just a tap away.

And with the ease of **all-new Google Fast Pair™** and Apple device compatibility, connectivity has never been more convenient.

Make every day better

From easily streaming calls, switching programs, and sending voice notes with **all-new Push-to-talk** to tracking activities, monitoring respiratory rate, and building balance—My Starkey makes better living easier.

Have a voice in your listening experience with **Gen AI**

Use your voice to learn more, make sound adjustments, and control your hearing aids—all while hands-free or on-the-go: Thanks to Gen AI technology, bringing even more ease to two key My Starkey app features.

TeleHear AI

TeleHear AI listens to your sound concerns then creates an **instant adjustment** for your devices based on thousands of professional fittings. Try it then apply it, plus resume your original setting anytime.

Gen AI Smart Assistant

Gen AI Smart Assistant lets you **ask questions about your hearing aids** or any topic, then provides detailed, conversational answers. You can also use it to change programs, set reminders, and more.

For convenience and control you can count on, look no further than Omega AI.

Better hearing is only the beginning

Ask your hearing care professional for a demonstration today—and hear what you can do, tomorrow.
